## Sprout Clinic

- 1:1 concentrated ABA therapy, implemented by a team of certified Registered Behavior Technicians (RBT)
- Individualized programs for each child- created and monitored by a Board-Certified Behavior Analyst (BCBA)
- Skills taught include, but are not limited to toilet training, communication, social skills in a group or parallel play setting, fine motor, gross motor, matching, functional play skills, increasing food intake, etc.
- The BCBA works in conjunction with the family to reduce maladaptive behaviors, teach new skills, and improve quality of life using research-based interventions
- Accept most insurance plans and have private pay options
